## STUPID SENATORS

The plan of aiding San Francisco by a government loan, as proposed by Senator Newlands, while turned down by the California Senators because they were not consulted, is approved generally by the press and people of California. Mr. Newlands' idea was that the presentation of a relief plan from a neighboring state would under the circumstances, relieve the California Senators of some embarrassment. Evidently they did not have the sense to understand the situation and so San Francisco will suffer in consequence. The California Senators are already being severely criticised by their state press for their stupid action.

The "made ground," which is the term for the filled in space from Montgomery street to the water front, appears to have suffered the most from the San Francisco earthquake. It would seem that a conservative investor would think twice before rebuilding there.

Would not this part of the city make an excellent Park?

It is quite interesting to watch the Republican party give the people the promised relief on the railway rate legislation. All the voting done by the Republicans on this bill is by the kind permission of the railway companies.

The News man seems to have over looked the fact that Senator Nixon has not been in Washington for some time. As the News has taken upon itself of late to deliver lectures on "absenteeism," a few pertinent remarks from that source just now might be in order.

The News, having looked over the situation with its usual care, reaches the conclusion that Senator Nixon is alone the real salvation of the State, as our Washington representative.

Several of our Republican contemporaries in mentioning the \$200,000 Republican defalcation of the school fund which is a part of the state history, have considerably knocked off three cyphers from the amount and so whittled it down to \$200. In another month they will have it down to 20 cents.

The fact that \$200,000, in gold coin lay all night unguarded on the steps of the depot at Reno has caused considerable self congratulation on the part of the newspapers of that city in connection with the honesty of the

town. The fact that the money remained out all night unguarded in Reno is certainly a reasonable basis for comment. Such an occurrence in Carson would have occasioned no remark.

## Insanity From Lack of Scize

Over forty people are being examined by the authorities daily in San Francisco for insanity, and it is thought that this is caused by the enforced abstinence from drink owing to the closing of the saloons.

Mining Recorder Bruener of Goldfield is credited by the Review with clearing up a quarter million in the sale of mining claims at Fairview, Churchill county.
